PROFESSIONAL SUMMARY

Business Intelligence Analyst with hands-on experience in SQL-based querying, Power BI dashboard development, data modeling, and data warehousing. Proven ability to translate complex datasets into actionable insights that drive data-driven decision-making for clients and organizations.

EXPERIENCE

Data Science Lead | Codeniet (Startup) | 2026 - Present - Design and maintain data models and warehousing frameworks to support scalable, business-wide analytics. - Lead end-to-end data analytics strategy — from pipeline development to stakeholder-facing BI deliverables. - Deploy machine learning models to solve complex business problems and reduce operational inefficiencies.

Freelance Business Intelligence Analyst (Self-Employed) | Jan 2025 - Present - Build interactive Power BI dashboards surfacing KPIs and trends that enable faster, data-driven client decisions. - Write advanced SQL queries (CTEs, window functions, joins) to extract and transform data into analysis-ready formats. - Structure and warehouse client datasets, delivering visual reports that reduce manual reporting time significantly.

PROJECTS

Explainable Deepfake Detection using Frame-Level Analysis + GRAD-CAM | Lead Developer - Engineered a data pipeline to collect, preprocess, and warehouse large-scale video frame datasets for model training. - Implemented Grad-CAM visualization to communicate model decisions to non-technical stakeholders, achieving high classification accuracy using Python and TensorFlow.

SKILLS

Business Intelligence: Power BI, Data Modeling, Data Warehousing, KPI Dashboard Development **SQL & Querying:** Advanced SQL, CTEs, Window Functions, Joins, Data-Driven Decision Making **Programming & ML:** Python, Pandas, NumPy, Scikit-learn, TensorFlow/Keras **Visualization & Tools:** Matplotlib, Seaborn, Excel, Git/GitHub

EDUCATION

B.Tech in Information Technology | Dr. M.G.R. Educational and Research Institute | 2022 – 2026 | GPA: 7.18
